DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Waldner et al (5566840).

Waldner discloses a positioning structure having a main member ((10), a boss (16) which is stepped because of decreasing tapered shape, and a plurality of member (12&14) with through holes.

In regard to claim 6, any surface that is not complete vertical is substantially perpendicular.

Allowable Subject Matter

3. Claims 3-5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed 7/18/05 have been fully considered but they are not persuasive.

5. Applicant states the prior art does not apply because Waldner does not

disclose or suggest a boss having a positioning section that positions members to be pierced to predetermined positions along an inserting direction of the boss.

In light of the discussion above, Applicant submits that claim 1 is patentable.

a. Waldener and the prior art only have to show something that can position because there is no special structure being recited.

6. Applicant submitted a new claim 6.

b. In regard to claim 6, any surface that is not complete vertical is substantially perpendicular. The claim is broad and so is the prior art used to reject it.

Conclusion

7. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
